INFORMATION DISCLOSURE STATEMENT

S I R:

The attention of the Examiner and the U.S. Patent and Trademark Office is hereby directed to the reference listed on attached form PTO-1449. A copy of the reference is also enclosed.

The reference was cited during the prosecution of a corresponding German application.

The reference was cited even though it was published before the filing date of the German application.

The reference was cited during the German prosecution for also showing a pressure intensifier in which the fluid for the drive of the pressure intensifier is completely separate from the fluid whose pressure is to be increased by the pressure intensifier. The German Examiner stated that this prior art is not to be considered an obstacle to patentability.

In order to overcome the cited patent as a reference in the present application, a certified translation of the priority document will be filed.

Respectfully submitted,  
FRIEDRICH KUEFFNER
